Hillsborough County, Fla. — The Florida Department of Health in Hillsborough County (DOH-Hillsborough) has issued a water quality advisory for the following location:

**Picnic Island Beach
7404 Picnic Island Beach Blvd.
Tampa, FL 33616**

Tests completed on Wednesday, April 9, 2025, indicate that the water quality at Picnic Island beach does not meet the recreational water quality criteria for *Enterococcus* bacteria recommended by the Florida Department of Health.

DOH-Hillsborough advises against any water-related activities at this location due to an increased risk of illness in swimmers. Sampling conducted during regular water quality monitoring showed that the level of bacteria exceeds the level established by state guidelines.

This advisory will continue until bacteria levels are below the accepted health level. Test results are available at FloridaHealth.gov/HealthyBeaches.

For more information call 813-559-4065 or visit Hillsborough.FloridaHealth.gov.
